- Use this link to let us know who your mentor/mentee is, or if you would like to be paired with someone.

Finding a mentor/mentee

A **mentor** may be a more experienced individual who you believe epitomizes what you hope to become.

A **mentee** may be an individual in whom you see great promise and who could benefit from your tutelage.

If you are lacking either a mentor or mentee, don't despair as we are here to help.

Look through the mentorship materials provided at the **Share YOU Breakfast** and the **Share YOU** portion of the azcteleads.org website and determine what resources you would like to utilize to make the mentorship a success. Use the resources to identify a goal or a need you would like to work toward and identify action steps to be completed throughout the year. Use the suggestions provided as a springboard.

Each quarter:

Meet (in person or virtually) with your mentor/mentee and update each other on the action steps previously identified. Determine if a new goal needs to be created. If so, identify a new goal and identify action steps to be completed prior to your next meeting. If not, identify additional action steps to help meet the established goal.

Consider discussing things that are working and things that are not. Don't be afraid to laugh at mistakes. Look for an email from Share You that will have valuable information to support you through the mentorship process.

Share your experience with us! We would love to highlight your experiences and success stories.
